

Skipton

Features:

The Skipton offers a practical solution for storing a mobility scooter. The unit is safe and secure, with the added option of connecting a charging socket inside the unit. Standing 3ft tall, fitted with an extra wide door as well as an anti-slip aluminium ramp and pre-cut wooden floor makes it easy to manoeuvre a scooter inside and out. Weighing 148Kg means they are strong, sturdy, and completely weather proof which means there is no need to purchase additional covers. Designed to allow simple rapid construction, the unit is the ideal for keeping your scooter charged and safe at the same time.
